AROUND THE WORLD WITH WILLY FOG

Willy Fog is an eccentric English student who bets all the fortune of his family against the son of England's bank director and other members of the University Residence, claiming he will be able to complete a round-the-world trip in 80 days, with London as the departure and arrival point. He embarks on an adventure full with action and comedy, accompanied by his friends Rigodon, Tico, and Romy, an Indian princess with a mysterious past. Inspired by one of the most famous novels by Jules Verne.
